ALLERGEN INFORMATION

All pizzas contain gluten in the standard Crust base and in some toppings. For gluten free requirements, choose a GF* pizza and request a gluten free base. Gluten free bases contain soy. We go to great lengths to identify allergens in the food we prepare, however we cannot guarantee that they have been created in a 100% allergen free environment. All products may contain traces of allergens: gluten, milk, nuts, soy, fish/seafood, egg, sesame seeds, sulphites and other ingredients: meat and meat products, olive pits, onion, garlic and chilli.
